Purwakarta, Jawa Barat

Computer Engineering graduate with a strong focus on business process automation and web development. I specialize in building digital tools that simplify complex manual tasks and improve work efficiency. I have a proven track record of creating applications that help departments manage data more accurately and save significant operational time.

Work Experiences

Telkom Witel Karawang - Karawang, Indonesia

Jul 2020 - Aug 2020

Jul 2021 - Aug 2021

Internship - Making Dataset

Creating and preparing dataset for training model

PT. Topy Palingda Manufacturing Indonesia - Karawang

Nov 2024 - Present

Finance & Accounting Staff

PT. TOPY PALINGDA Manufacturing Indonesia (TPMI) is a multinational wheel rim manufacturing company, a joint venture between PAKO Group (under AOP & Triputra) and TOPY Industries Ltd. Japan.

- Costing Monitoring System: Built a web application using Laravel & Vue.js to calculate production costs (Standard vs. Actual). This system helps the company track price differences and analyze material and process expenses more accurately.
- Digital Approval System: Developed an online "Entertainment Expense" feature using Laravel & Bootstrap. It digitizes the entire process, from employee submission to manager approval, replacing manual paperwork.
- Automated complex data workflows (Tax, Mass Payments, and Exchange Rates) using Excel VBA/Macros to reduce processing time and ensure data accuracy.
- Optimized tax invoice exchange workflows, significantly reducing outstanding invoices and speeding up tax reconciliation.
- Digitalized hazardous waste disposal records, ensuring real-time monitoring, regulatory compliance, and audit-ready reporting.
- Digitalized operational vehicle and driver booking processes, replacing manual paperwork with a centralized scheduling and approval system to improve asset utilization and tracking accuracy.
- Posted and processed Account Payable (AP) journal entries in SAP to ensure accurate and timely financial records.
- Credited input VAT (Pajak Masukan) through the Coretax system, ensuring regulatory compliance and accurate tax reconciliation.

Education Level

Universitas Telkom - Bandung, Indonesia

Aug 2018 - Sep 2022

Bachelor of Computer Engineering

MySkill - Jakarta, Indonesia
